

Robust Deep Learning Seminar in Summer 2026 at the Chair of AI Methodology (AIM)

Organisers: Prof. Dr. Holger H. Hoos, M.Sc. Konstantin Kaulen, M.Sc. Anna Münz

General Information

The block seminar will take place in the seminar room of AIM at [Theaterstraße 35-39, 3rd floor](#).

Please arrive on time since we have a tight schedule!

The seminar is organised in the form of a scientific workshop. Each presentation will be 30 minutes, followed by up to 30 minutes of discussion.

Please note that **all students are expected to attend and actively participate in all presentations, unless prior arrangements have been made with us.**

Day 1: Tuesday, August 4

08:30 to 12:00 - Session 1

08:30 to 08:45	Welcome reception Arrival, get-together, checking technical equipment
08:45 to 9:45	Speakers: Marius Wrobel and Bjarne Thal Topic: <i>Adversarial Attacks (AA)</i>
09:45 to 10:00	Coffee Break
10:00 to 11:00	Speakers: Antoine Valla Topic: <i>Empirical Adversarial Defences (AD)</i>
11:00 to 12:00	Speakers: Chaitanya Nawale and The Hung Tran Topic: <i>Adversarial Robustness of LLMs (LLM)</i>

13:00 to 16:15 - Session 2

13:00 to 14:00	Speakers: Nico Bremes and Maximilian Kannen Topic: <i>Benchmarking Robustness (BR)</i>
14:00 to 15:00	Speakers: Dorian Koch and Jan Ebigt Topic: <i>Incomplete Neural Network Verification (I-NNV)</i>
15:00 to 15:15	Coffee Break
15:15 to 16:15	Speakers: Olesia Malanchuk and Phil Gustke Topic: <i>Complete Neural Network Verification (C-NNV)</i>

Day 2: Wednesday, August 5

8:45 to 12:00 - Session 3

8:45 to 9:00	Welcome reception Arrival, get -together with coffee and cookies, checking technical equipment
9:00 to 10:00	Speakers: Julia Walczak Topic: <i>Global Robustness Guarantees (GG)</i>
10:00 to 11:00	Speakers: Emir Pisirici and Marc Theißen Topic: <i>Probabilistic Robustness Certificates (P-NNV)</i>

11:00 to 12:00 **Speakers:** Sebastian Illges and Lasse van Baal
Topic: *Deterministic Certified Training (D-CT)*

12:00 to 13:00 **Lunch Break**

13:00 to 14:30 - Session 4

13:00 to 14:00 **Speakers:** Raphael Malig and Jonas Holtwick
Topic: *Verification of Semantic Threat Models (S-NNB)*

14:00 to 14:30 **Closing session**
Wrap-up, answering open questions, . . .
